THE MERRYS

Sunrise

Knoll

109 BROOKSIDE ROAD, NEEDHAM 92, MASS.
TEL. NEEDHAM 3-2119

We thank our customers for their continued support and wish them success in their gardens this coming season.

This spring we are offering a representative list of standard chrysanthemum favorites as well as a few new varieties. Plants available from mid May.

In addition to the Merry hemerocallis clones, we are adding a list of desirable varieties of other hybridizers. Spring, late summer and fall delivery. Blooming dates are for 1952, which was an early season.

Although we are not listing bearded iris this year, we grow a fine group in the medium priced field, including some of the new wanted pinks. Ready after blooming.

Visitors are always welcome. Iris are at their peak in early June; hemerocallis (daylilies) in mid July, but continue their bloom through August; chrysanthemums in late September to frost and after in our plastic shelter. Begonias, of which we now grow 150 varieties, are on display all through the year.

Terms are cash with order, check, draft, or money order. Postage is paid on orders over \$5; on smaller orders add 35¢ for packing and postage.

NEW CHRYSANTHEMUMS

- FASCINATION (Bristol 1952) 4-inch double of gorgeous silvery lavender pink. 2 feet. Late September. \$1 each.
SPINDRIFT (Bristol 1952) Symmetrically sculptured 3-inch double white with slight suggestion of cream in center. 2 feet. Early October. \$1 each.
ADMIRATION (Bristol 1953) Exquisitely double 3-inch blooms in splendid sprays. Harmony of bright peach, salmon-fawn, and soft red flushes. 2 feet. Late September. \$1.25 each.

GENERAL LIST

The following varieties are all offered at the average price of 50¢ each, \$5 per dozen. Plants are grown in three-inch bands.

ABBREVIATIONS

P Pompom SD Semidouble E Early L Late En English
S Single D Double M Midseason C Canadian

WHITE

- AVALANCHE E.D. 5-inch shaggy bloom. 2'. Good standard variety
IVORY GLOW M.D. Large solid incurved. Disbud for larger blooms.
